11 March 2013

Dear Parent /Carer,

In 2012, Connells Point Public School introduced the online mathematics program, Mathletics. The program is used by teachers and students within the classroom and will further assist students by providing meaningful homework tasks that relate to work being covered in class, allowing for consolidation and revision.

Over the coming weeks, your child’s class teacher (Kindergarten and Year 1) or group teacher (Years 3 to 6), will provide your child with a password for Mathletics. Please feel free to have a look at the website and encourage your child to attempt the many activities on offer.

Teachers will then assign tasks that must be completed for homework, before other activities on the website are unlocked and made available to the student. If you do not have internet access at home, please discuss this with your class teacher and class time will be organised for your child to complete the assigned tasks.

The annual fee for the program is $10 per student. This low cost can only be achieved through a substantial government school discount.

Mathletics
Mathletics is a web-based learning program which integrates home and school learning via the internet. Mathletics covers all years of schooling and is currently used in over 3900 Australian schools. Over 200,000 students access Mathletics every day helping students enjoy Maths and achieve great results. Visit www.mathletics.com.au
