Local Area Building Works

Dear Parents and Carers

You have probably noticed that two properties in Connells Point Road, opposite the school, are undergoing demolition and excavation work. This work is unrelated to our own library construction project.

While our builders have strict guidelines, such as restricted delivery times, to safeguard our students and other pedestrians, these special conditions don’t apply to general builders on private projects.

Please be aware of the increased large vehicle traffic in this area, and take extra care to ensure the safety of students walking on footpaths or crossing at the Connells Point Road crossing. With such an unusually busy time for building in such close proximity, we need to be vigilant to protect our children from the increased heavy traffic.

Mrs Anne Hewson
Principal
