2 March 2012

Dear Parents and Carers

This weekend is Clean Up Australia. Some of our families will be actively involved in cleaning up local areas.

On Friday 9 March we are having a Clean Up Day at our school.

This activity fits very well with our school values system. The Social Value of Care – taking care of the school and natural environment; Community Value of Cooperation – working together to achieve common goals and solve problems; and Participation – being a productive individual and group member, having pride in and contributing to the quality of school and community life.

All the classes will be involved in the clean up for a short period of time after lunch.

If you would like your child to use a glove to pick up rubbish that they find in the school grounds, please put a glove in your child’s bag next Friday.

Thank you for your cooperation.

Mrs Anne Hewson
Principal

School Environment Programs Committee Principal
