Dear Parents and Carers,

As Kindergarten students have commenced their computer lessons, they have been issued with a username. They will need to type this each time they log on. The children need to practise this at home on a keyboard (we have also provided this keyboard image for them to practise on - please refer to next page). They must type their username exactly as it appears. The students have also been shown the 3 keys they need to press in order to unlock the computers.

These are:  
CTRL     ALT     DEL

These 3 keys need to be pressed in order (one at a time) and held down. They have been highlighted below.

We would be most appreciative if you could help your child locate the letters on the keyboard.

We are most grateful for your cooperation in this matter.

Mrs T. Corben  
Relieving Principal

Mrs T. Mar  
Assistant Principal
