SAFETY CONCERNS IN OUR DROP-OFF ZONE

22 October 2014

Dear Parents and Carers,

The school has received complaints from parents and community members regarding the safe use of the drop off zone outside the front of our school, on Riverview Avenue.

The concerns relate to vehicles which are:

- parked and unattended in the drop-off zone;
- double parked in the drop-off zone;
- parked within the disabled parking zone;
- parked in the bus zone and;
- parked in the school driveway.

When cars are left unattended or are parked illegally, it blocks other traffic and has been creating some dangerous traffic hazards. We are very concerned for our student and community safety and would like to remind parents to take extra care along school roads.

Whilst we teach Road Safety as part of our Personal Development curriculum, young children learn a great deal when in a ‘real traffic environment’. By displaying patience and following our road rules, all drivers can help us make our school safer - as well as help our students continue to practise safe road behaviours.
