22 May 2013

Dear Parents and Carers,

Walk Safely to School Day is officially on Friday 24 May; however, we are extending this important activity for the whole week, so that you can choose the most convenient day for your family to walk to school.

On the map below, indicate where you started your walk. You can do this by drawing a small spot on the map. Then using a broken line show the way you walked to school. The walk needs to start outside the circled area, as anything inside the circle is too close to the school.

Please sign the map and return to school in Week 5, ending Friday 31 May.

Mrs T. Mar
Assistant Principal
