8 February 2013

Dear Parents and Carers

On Tuesday 12 February, a fun learning day based around a water theme has been organised for all Year 1 and Year 2 students. This is during normal class time.

The teaching/learning activities will supplement the unit, Wet and Dry Environments, Stage 1 are studying this term. The teachers have planned a variety of lessons to teach students about water and they will use water to teach different concepts.

The students will be participating in hands-on learning activities with water and rotate to work with different teachers. Some of the activities will include Mathematics – Capacity and Displacement; Science – Water Cycle, Float and Sink and Water Pollution; English - stories about Water; Creative Arts – songs about water and Visual Arts; Physical Education – Relays.

The students will be at school and will need to wear their school uniform. This is a normal school day, with lots of fun.
